

PEST CONTROL PESTICIDE NOTICE

According to the laws and regulations of the state of California we are required to provide you with the following information prior to application of pesticides to your property. Please review this notice and ask questions as necessary.

State law requires that you are given the following information: "**CAUTION - PESTICIDES ARE TOXIC CHEMICALS.** Structural Pest Control Operators are licensed and regulated by the Structural Pest Control Board and apply pesticides which are registered and approved for use by the California Department of Pesticide Regulation and the United States Environmental Protection Agency. Registration is granted when the state finds that based in existing scientific evidence there are no appreciable risks if proper use conditions are followed or that the risks are outweighed by the benefits. The degree or risk depends upon the degree of exposure, so exposure should be minimized"

"If within 24 hours following application you experience symptoms similar to common seasonal illness comparable to the flu or other symptoms such as (but not limited to) headache, fatigue, weakness, dizziness, restlessness, nervousness, diarrhea, loss of appetite, loss of weight, thirst, skin irritation, eye irritation, irritation of the nose and throat. Or in the event of exposure of anticoagulant rodenticides symptoms may include internal bleeding, nose bleeding etc.... Contact your physician or poison control center at **800-876-4766**, and your pest control company immediately."

For any further information please contact any of the following:

VAST PROS' Office:
